

0820-1030

SYMPOSIUM 20 (Chinese/中文): CHINESE GUIDELINE

中国高血压指南

Conference Room No. 305, Level 3

Chairpersons: Yong Li 李勇, Jun Huang 黄峻

0820-0840	Diagnosis and evaluation of hypertension 高血压的诊断与评估 - Dingliang Zhu 朱鼎良
0840-0900	Hypertension management: evidence, evaluation and principles 高血压治疗证据、评估及原则 - Wen Wang 王文
0900-0920	Epidemic tendency of hypertension in China 中国高血压流行趋势 - Zhaosu Wu 吴兆苏
0920-0940	Treatment principles for hypertension in special populations 特殊人群高血压处理原则 - Jun Huang 黄峻
0940-1000	Blood pressure measurement: guidelines and advancement 血压测量的规范与进展 - Weizhong Zhang 张维忠
1000-1010	Differences and evaluation of central aortic pressure in different ethnic groups 中心动脉压在不同民族间的差异及评价 - Xinjuan Xu 徐新娟
1010-1030	A guide to the development, implementation and evaluation of a clinical practice guideline 制定、实施和评价临床操作指南的指导原则 - Tingrui Guan 管廷瑞

0830-1810

SYMPOSIUM 21 (English/英文): 3rd PULSE OF ASIA 2011

Conference Room No. 307, Level 3

Session 1: Pulse wave reflection and its role in target organ damage

Chairpersons: Jiguang Wang (China) , Young Moo Ro (Korea)	
0830-0845	Opening remarks for 2011 POA - Zhaosu Wu (China)
0845-0900	Relationship between cardiovascular risk and arterial function in an Indian population - Carmel McEniery (UK)
0900-0915	Diabetes and arterial stiffness - Hongyu Wang (China)
0915-0930	Central blood pressure and left ventricular diastolic function - Yan Li (China)
0930-0945	Obstructive sleep apnea and vascular dysfunction - Sungha Park (Korea)
0945-1000	Panel discussion: Geu-Ru Hong (Korea), James E. Sharman (Australia), and all speakers
Invited Lecture (Chairperson: Michael O'Rourke (Australia))	
1000-1030	Salt – its damaging effects on the cardiovascular system - Graham A. MacGregor (UK)
1030-1100	Break
Session 2: Mechanistic aspects of arterial function	
2-1. Salt and arterial function	
Chairpersons: Yuhei Kawano (Japan), Xiongjing Jiang (China)	
1100-1115	Effects of a reduced sodium, increased potassium salt substitute on peripheral and central blood pressure among high-risk individuals in rural China: a randomized controlled trial - Xiongjing Jiang (China)
1115-1130	Salt changes central but not peripheral hemodynamics - Jeong Bae Park (Korea)
1130-1145	Panel discussion Walter Abhayaratna (Australia), Moo Yong Rhee (Korea) and all speakers
2-2. Dynamic pulse pressure changes during exercise: Role in pathophysiology of cardiovascular disease	
Chairpersons: Alberto Avolio (Australia), Jun Tao (China)	
1145-1200	Validity of non-invasive measurement of changes in central aortic pressure during exercise - Alberto Avolio (Australia)

1200-1215	Physical exercise-based lifestyle intervention restores vascular injury in normal subjects and patients with hypertension - Jun Tao (China)
1215-1230	Panel discussion: Carmel McEniery (UK), Chen-Huan Chen (Taiwan, China) and all speakers
1230-1330	Lunch
Session 3: Diverse tools for arterial function and structure	
Arterial stiffness evaluation techniques	
Chairpersons: Dingliang Zhu (China), Kee Sik Kim (Korea)	
1330-1345	Standard method: Pulse wave velocity and analysis - Masanori Munakata (Japan)
1345-1400	Ambulatory arterial wave analysis - Jiguang Wang (China)
1400-1415	Cardio-ankle vascular index as a vascular function - Kohji Shirai (Japan)
1415-1430	Cardiac function: PWV vs. PWA - Walter Abhayaratna (Australia)
1430-1445	Molecular imaging of arterial pathophysiology - Dong-Eog Kim (Korea)
1445-1500	New image-based aortic wall stiffness evaluation technique: arterial wall stiffness index - Jong Min Lee (Korea)
1500-1515	Panel discussion: Se Joong Rim (Korea), Junichiro Hashimoto (Japan) and all speakers
Invited Lecture (Chairperson: Byung Hee Oh (Korea))	
1515-1545	Hypertensive vascular disease: where are we now and where should we go further? - Michael O'Rourke (Australia)
1545-1610	Break
Session 4: Treatment of central blood pressure	
4-1. Central blood pressure as a marker of cardiovascular prognosis	
Chairpersons: Walter Abhayaratna (Australia), Kohji Shirai (Japan)	
1610-1625	Is central blood pressure better than brachial blood pressure in terms of guiding therapy and reducing risk for cardiovascular disease? - James E. Sharman (Australia)

1625-1640	Effects of central hemodynamics on all-cause and cardiovascular mortality - Chen-Huan Chen (Taiwan, China)
1640-1655	Panel discussion: Chang Gyu Park (Korea), Hongyu Wang (China) and all speakers
4-2. Treatment of central blood pressure: Are there class differences?	
Chairpersons: Jeong Bae Park (Korea), Kenji Takazawa (Japan)	
1655-1710	How can we clarify different mechanisms of vasodilator agents using central pressure wave analyses? - Kenji Takazawa(Japan)
1710-1725	Are certain classes and combinations of antihypertensive drugs better at reducing central blood pressure? - Kazuyuki Shimada (Japan)
1725-1740	Panel discussion: Yuhei Kawano (Japan), Yan Li (China) and all speakers
1740-1750	The Pulse of Asia Sydney 2012 - James E. Sharman (Australia)
1750-1800	Closing Remarks: Best Poster Presentation Award - Jeong Bae Park (Korea)

0930-1040

SYMPOSIUM 22 (English/英文): LATE-BREAKING STUDIES

Conference Room No. 201, Level 2

Chairpersons: Ningling Sun (China), Tingjie Zhang (China)

0930-0945	FEVER - Yuqing Zhang (China)
0945-1000	SEARCH - Ningling Sun (China)
1000-1015	CHINOM - Yuqing Zhang (China)
1015-1030	CHIEF - Liyuan Ma (China)
1030-1040	Ginsenoside Rb3 inhibits homocysteine-induced endothelial dysfunction in rat thoracic aorta -Youhua Wang (China)
